

# Release Liner for Building & Roofing

Mondi's self-adhesive protective liners allow easy rewinding of the final product, eliminating the need to burn it off and therefore ensuring a safer working environment.

- Features**
  - Secure and stable supply chain
  - Excellent barrier properties
  - Wide widths coating options (up to 2m)
  - Embossing, micro-perforating and tear-strips available
  - Printing options on the reverse side or under silicone
- Applications**
  - Self-adhesive for roofing (shingles, roll materials)
  - Self-adhesive insulation materials
- Sustainability**
  - Recyclable
  - Up to 70% recycled paper content
  - Up to 70% recycled plastic content
  - Responsibly sourced & certified paper
