Why is SpeakOut important?

Mondi (further *Company*) is committed to conduct its business activities in an ethical and legal way. This is applicable to all Mondi sites and their employees, as well as related third parties.

Whenever you have a concern related to the work-place and which is not in line with ethical or legal requirements do contact either your line manager, supervisor, local senior management, or your human resources representative or use the SpeakOut channel available.

The Mondi SpeakOut framework consists of the Mondi SpeakOut Policy and SpeakOut Internal Methodology, underpinned by the Code of Business Ethics (approved by the Board), Mondi Business Integrity Policy (approved by the Board) and the Mondi Business Integrity Implementation Policy (approved by the Executive Committee).

What is the purpose of the SpeakOut policy?

The purpose of this policy is to explain how and in what circumstances you can raise concerns about suspected misconduct in confidence and without fear of retaliation. It also describes what you can expect from our Company if you speak out.

This SpeakOut policy is publicly available to anyone (colleagues, customers, communities, and Mondi partners).

What concerns are covered by this SpeakOut policy?

This SpeakOut policy can be used to raise concerns about suspected misconduct within our Company or any violation of our Code of Business Conduct and/or its policies under which our Company operates.

Examples of concerns that can be raised using this SpeakOut policy are:

- Fraud
- Human rights violations
- Discrimination or harassment
- Violations of competition laws and rules
- Money laundering or violation of sanction laws
- Inadequate financial or non-financial recordkeeping
- Bribery
- Conflict of interest
- Environmental, health and safety issues
- Improper use of company resources
- Insider trading
- Disclosure of confidential information
- Violations of any of our policies
- Retaliation against anyone for speaking out in good faith

Do not use this policy:

- To report events presenting an immediate threat to life or property. If you need emergency assistance, please contact your local authorities or call your country's emergency phone number.
- For any grievances you may have in relation to your terms of employment.
- To settle personal or legal disputes.
- To make accusations which you know are false. Doing so may lead to disciplinary measures.

How to use SpeakOut?

If you suspect misconduct, you can use our SpeakOut tool to raise concerns confidentially and in your own language. The SpeakOut tool is run by an independent third party and is available 24/7, 365 days a year.

There are three ways to submit a report through the SpeakOut:

To file a concern online, please access the Mondy SpeakOut website at mondigroup.speakup.report/mondigroup where you can fill in a form to submit your concern.

To raise your concern by phone, please call via free-toll numbers specific for your country. Please check planetmondi for the phone numbers and further instructions.

To raise your concern via mobile, download the mobile app **SpeakUp Listen for a change** or scan the QR code from the posters or planetmondi page.

When completing your report (online or by phone), you will receive a unique code called 'report number'. You can use this report number to call back or access the website (mondigroup.speakup.report/mondigroup) to check progress on your report. You can see whether someone from Response Team has requested further details or provided information about the status of the analysis or outcome.

You are not required to identify yourself in any SpeakOut messages. Likewise, if you submitted supporting documents and would like to remain anonymous, please make sure your contact details are not mentioned in the attachments or in its properties.

If you do decide to leave your name, then someone from the independent Response Team can directly contact you to discuss your concern.

All concerns raised will be treated under discretion and in the strictest confidence. Any employee raising an issue or concern will not be discriminated against in any way. Retaliation against anyone for speaking out in good faith will not be tolerated and is in violation to our Code of Business Ethics.

Mondi strongly encourages reports to be made internally so that Mondy has an opportunity to investigate and remedy any concerns. However, should you wish to report your concerns externally, the country-specific external reporting channels (as far as available) can be found in Annex 6 to this Policy.

Do reports remain confidential?

All reporting is received confidentially and remains so throughout the investigation process. This means that information related to your concern will only be shared with a limited number of people on a strict need-to-know basis.

Access to the SpeakOut channel is restricted to a very limited number of people, with the aim to ensure confidentiality of the information received, increase independence and objectivity and to ensure sufficient traceability from the allegation to the investigation.

The designated persons (Response Team) within Mondi Group that will have access to the SpeakOut platform for all the incidents received, are the following:

- Group Head of Internal Audit;
- Maximum of two permanent members from the GIA team, out of which:
 - one will be responsible for monitoring, logging the incidents received outside the reporting channel and regular follow-up, and
 - one GIA member who is formally qualified (a.o. experienced forensics specialist) who will be responsible for analysis of cases and reporting.
- The Company Secretary (read only rights) as required.

Information will only be disclosed outside this small group if we are required to do so by law or an important public interest is at stake. In principle, we are obliged to inform the implicated person that a complaint has been filed against him/her, but your identity will not be disclosed. You can help us protect confidentiality by being discreet and not discussing your report with your colleagues or anyone else.

Is it possible to report anonymously?

You can share your concerns anonymously (where allowed by the laws of your country). We do however encourage you to reveal your identity as it is more difficult, and in some circumstances even impossible, for us to investigate reports that are made anonymously.

What about external whistleblowing?

We strongly encourage you to raise concerns internally through one of the available channels. Taking a concern to an outside party (e.g. the media) can have serious implications for our Company, for the persons involved and possibly for yourself too. By speaking out internally, you give our Company the chance to investigate the matter and take appropriate actions. In this way we can truly improve our Company together.

What kind of information do you need to provide?

Prior to leaving a message, you will be required to answer filtering questions, to help the Response Team to triage the incidents received in most efficient manner.

When you file a report, please provide as much detailed information as you can to enable our Response Team to assess and investigate your concern. This includes:

- The background and reason for the concern
- Names, dates, places and other relevant information
- Any documents that may support your report.

A report can only be successfully followed-up if it contains sufficient information and there is a reasonable possibility of obtaining further information.

What should you do if you do not have all the facts?

We encourage you to speak out as soon as possible, ideally before situations get out of hand or damage is done. It is always better to discuss upfront than to report afterwards. If you know about or suspect misconduct, speak out with the facts that you have. We do not expect you to

have all the answers and you are certainly not expected to prove that your concern is well founded. Let our Response Team investigate the matter to determine if there is a reason for concern.

Never investigate the matter yourself and do not seek evidence to build a strong case. We guarantee that no disciplinary measures or other steps will be taken against you if your genuine concern later turns out to be mistaken or misguided.

SAFEGUARDING YOUR POSITION: NON-RETALIATION

Will your privacy be safeguarded?

Our Company is committed to protecting the privacy of everyone involved. We will do everything to safeguard personal data from unauthorized access and processing. Any personal data obtained as part of this SpeakOut policy will only be used for the purposes explained in this policy or to comply with the law or an important public interest. Please find more details on the protection of personal data in Annex 1 – Privacy Notice.

How will you be protected if you speak out?

In our Company we encourage people to speak out about (suspected) misconduct and employees are always protected when they address a concern. Please feel confident that you will not suffer for raising concerns in good faith about suspected misconduct. Any form of threat or retaliation will not be tolerated. Retaliation against reporters is treated as a violation of our Code of Business Conduct and consequently may lead to disciplinary measures.

You will not be protected, however, if you maliciously raise a concern that you know is false.

What should you do if you notice any retaliation?

If you notice any retaliation against you or against anyone else for raising or having raised a concern in good faith about suspected misconduct, report this via our SpeakOut channels. A report on retaliation against a reporter is treated like any other SpeakOut report and the same procedure is followed.

What happens if this policy is misused?

It is a violation of our Code of Business Ethics to knowingly make a false accusation. Doing so may lead to disciplinary measures.

FOLLOW-UP – WHAT HAPPENS AFTER YOU SPEAK OUT

What can you expect?

Mondi takes every report of possible misconduct seriously. If you submit a report, you will receive a confirmation of receipt within 7 working days. On average, closure of the matter can be expected within one to three months, depending on the complexity and extent of investigation required. You will be informed of the overall findings, i.e. whether our Company has established that misconduct has taken place or not. Please note that we will not be able to give you full details of the outcome of a case (or related actions taken) for reasons of confidentiality, privacy and the legal rights of all concerned.

Who will act on your concerns and how?

All reports of concern that the Company receives are logged into the case management system. Details of the case, your identity and the identity of anyone else mentioned in the report, are kept confidential throughout and after the investigation and are only shared on a need-to-know basis.

The Response team categorizes and allocates the handling of cases to a Case Manager based on set criteria. In addition, it aims to ensure that the cases are investigated in a timely, objective, confidential, independent and sufficient manner which allows for a clear and objective resolution to be achieved and which is in line with applicable laws and regulations.

The review of the (suspected) incidents is performed based on:

- i) pre-defined categories of incidents;
- ii) a pre-defined risk-matrix / assessment; and
- iii) a pre-defined case allocation criteria.

Categories of incidents

The incidents received will be categorized in accordance with the following categories, which are set based on the ACFE Fraud Tree issued by the Association of Certified Fraud Examiners. Each category listed below will also have sub-categories:

1. Fraud¹
2. Human resource management related misconducts
3. Competition, Laws and Regulations
4. Safety, Health and Environment

 - When a reported (suspected) case lacks sufficient information to allow for an investigation (a.o. does not identify person(s), location, is vague, or based on details provided it is not possible to adequately assess whether there is a violation to the above-mentioned policies) and, upon follow-up and request for further information by the Response Team, no further details are provided within 2 weeks.

Upon receipt of the incident through the SpeakOut channel, the Response Team will respond to the reporter within 7 days confirming the receipt of the case and providing initial feedback.

Allocation and escalation gates

As part of the coordination of the SpeakOut incidents received, the Response Team conducts the case allocation and the communication/escalation process based on pre-defined criteria (nature of incident, level of risk, level of expertise, internal / external support involved, etc) and in line with the principles established through the Business Integrity Policy. Please refer to Annex 5 – SpeakOut process.

What is expected of you in connection with investigations?

If you become involved in an investigation, you are asked to cooperate and answer all questions completely and honestly. Lying to the people performing the investigation as well as delaying or interfering with an investigation may lead to disciplinary measures. Refusal to cooperate will not aid the investigation either. All parties involved, including the accused, are entitled to confidentiality in order to avoid unnecessary damage to their reputation. Therefore, if you participate in or learn about an investigation, you must keep the matter confidential.
